Introducing
FINI
Flip It. Nest It.

WYATT
SEATING

Wyatt Seating Introduces the Fini Chair

➡ Say hello to the Fini... your perfect companion for those marathon meetings and learning sessions. Perfect for training and collaboration spaces, Fini introduces unparalleled comfort for long seminars while promoting efficient storage with its easy “flip it, nest it” design.

This makes it ideal for modern workplaces where space efficiency is paramount. By choosing the Fini chair, you're not just enhancing your seating options; you're investing in a product that promotes productivity, comfort, and efficient space utilization.

The Fini isn't just another chair; it's the result of listening to our dealers' requests and turning them into solutions that help you win.

Fini Chair Features for a Winning Meeting:

- **Flip-Up Seat:** Effortlessly flips up for easy nesting and efficient storage.
- **Tilting Back:** Provides dynamic comfort, accommodating various seating postures.
- **Multi-Surface Casters:** Ensure smooth movement across different floor types.
- **Molded Foam Seat:** Offers superior comfort for extended periods.
- **Breathable Mesh Back:** Ensures optimal airflow, keeping users cool during prolonged sessions.
- **Stylish Versatility:** Available in two base, back, mesh, and arm color options to match any office aesthetic.

Elevate your training environments with the Fini chair and experience comfort that goes the distance. [Learn more today.](#) **BoF**

Tilting Back

Our flexible, tilting back provides dynamic comfort throughout the day.

Breathable Mesh Back

Allows heat to dissipate for long periods of comfortable sitting.

2 Base, Back, and Arm Colors

Choose from two base, back, and arm finishes to seamlessly integrate with your office's aesthetic.

Molded Foam Seat

A cushioned seat designed for extended comfort.

Multi-Surface Casters

Ensures smooth movement across all types of surfaces.

FINI

Features & Adjustments

Flip-up Seat

Our "Flip it, Nest it" design allows the chairs to nest, providing more efficient storage when not in use.
